

Emergency Incident Scenarios – Set No. 3

Description	Response Level	Notes
Woman has a broken leg		
It's very hot and the person is dizzy, has red, hot dry skin and a rapid heartbeat		
Woman has numbness on one side of body, seems confused, has trouble seeing and walking, and complains of headache		
Cat has major injury that is bleeding continuously.		
House has collapsed, trapping man's legs under debris		
A large branch has fallen onto the street, preventing vehicles from passing		
Person's arm has a compound fracture (a broken bone with the bone protruding through the skin)		
Two ponies are running wildly through the neighborhood		
A neighbor from three streets away asks for help in putting out a fire that has engulfed a home		
Your Incident Commander becomes incapacitated
